Business U Awarded Institutional Accreditation from CEU Originator IACET
Business U joins elite group of educators committed to high quality education and training

Los Angeles, California - - The International Association for Continuing Education and Training (IACET) has awarded Institutional Accreditation status to Business U, Inc. (BU), a national organization committed to elevating professional development in three vertical markets including workforce, education and economic development to help these organizations better engage business and industry as a partner (in sector strategies and work-based learning), as a customer (in government-funded services), and as a funder (in social enterprises and investments).

Business U, Co-founder, Dr. Christine Bosworth, said, "IACET is the premier standards-setting organization for continuing education and training. As an Accredited Provider, Business U joins an elite group of educators dedicated to excellence in continuing education and training. Our educational philosophy serves to underpin Business U's instructional methods, facilitation activities and the technical assistance and coaching we provide. Our accreditation status allows us to continue the work we are doing nationally to promote benchmarks for quality program design and delivery."

Business U is a thought leader within its vertical markets with outcomes driven learning events to help organizations build transformational relationships in engaging business and industry with their important missions to improve economic indicators and advance job seekers and students within their respective markets across the nation.

IACET Accredited Providers are the only organizations approved to offer IACET Continuing Education Units (CEUs). The accreditation period extends for five years, and includes all programs offered or created during that time. These CEUs are recognized, accepted and, even required by many state agencies and credentialing organizations.

"Business U joins an elite group of organizations around the globe that have had their organizations and programs audited by third-party continuing education experts to ensure the highest possible standards are met," said Lori Schnaider, president of IACET. Schnaider added, "Business U has completed a rigorous application process, including a review by an IACET site visitor, to achieve its Accredited Provider accreditation; the organization successfully demonstrated adherence to the ANSI/IACET 1-2013 Standard addressing the design, development, administration, and evaluation of its programs."

Business U, Co-founder, Celina Shands Gradijan, said, "Because of our status as an IACET Accredited Provider, our customers can be assured that Business U is the 'best in class' in professional development and technical expertise to maximize business engagement within workforce, education and economic development. This is evidenced by the results of our Boot Camp graduates and the successful models we've established nationally."

###

IACET is a non-profit association dedicated to quality continuing education and training programs and is the only standard-setting organization approved by the American National Standards Institute (ANSI) for continuing education and training. The ANSI/IACET Standard is the core of thousands of educational programs worldwide. For more information, visit www.iacet.org or call 703-234-4065.

Business U, Inc. is an institutionally accredited national organization that creates capacity and sustainability for workforce, education and economic development organizations through strategies, technology, and professional development learning events that result in attracting businesses as a partner (in sector strategies and work-based learning), as a customer (with government-funded services), and as a funder (to invest and leverage).
